March 15, 2013

*This notice contains important information about the following:*

- **Special Message from General Manager Thomas Birmingham**

You have previously received notice that the annual Westlands Water District Water Users Workshop is scheduled for next Tuesday, March 19, 2013, at 1:30, at the Five Points Field Office.

I encourage all water users to attend the workshop to hear current information on critically important matters, including information on Central Valley Project operations and the allocation of CVP water for the 2013-14 contract year. On February 25, 2013, the Bureau of Reclamation announced an initial allocation for south-of-Delta CVP ag service contractors of 25%, and since that announcement was made, conditions have been extraordinarily dry.

I am certain that the allocation will not be increased in March, and in light of the very dry conditions in February and March, there is a chance the allocation could be decreased.

Please attend the Water Users Workshop so that we can discuss these very important issues.

Thomas Birmingham  
General Manager
